

# IEEE网络课堂之二:

# IEEE会议投稿流程与注意事项

IEEE

# 2016下半年网络课堂系列

## ■ 培训主题

- 主题一：IEEE数据库检索技巧详解
- 主题二：如何成为IEEE作者
- 主题三：IEEE会员申请、竞赛奖学金与择业辅助介绍
- 主题四：创新的起点-IEEE标准协会与标准检索详解
- 主题五：**InnovationQ Plus**: 专利检索与专利分析
- 主题六：IEEE图书馆员专场-新内容、新功能与新服务汇总更新

## ■ 培训形式

- 注册**Webex**网络培训(更多主题、交互视频、实时沟通)
- 注册微信公众号培训(主题二/三、音频沟通、随时收听)

[http://cn.ieee.org/online\\_training.html](http://cn.ieee.org/online_training.html)

# 培训要点

- 选择适合的IEEE 学术会议
- IEEE会议投稿流程
- IEEE会议投稿注意事项：Do vs. Don't
- IEEE会议组织合办流程介绍

# 发表期刊文章还是会议文章

## IEEE Journals

- IEEE journals are cited 3 times more often in patent applications than other leading publisher's journals

- A high percentage of articles submitted to any professional publication are rejected

## IEEE Conferences

- IEEE Conference proceedings are recognized worldwide as the most vital collection of consolidated published articles in EE, computer science, related fields

- Per IEEE Guidelines, if you do not present your article at a conference, it may be suppressed in IEEE *Xplore* and not indexed in other databases

# IEEE Journals or Conferences?

- A **journal article** is a fully developed presentation of your work and its final findings 期刊文章是研究工作和最终结果的完整展示
  - Original research results presented 展示原创研究结果
  - Clear conclusions are made and supported by the data 做出清晰推论, 并辅以数据支持
- A **conference article** can be written while research is ongoing 会议文章可以是正在进行没有完成的研究
  - Can present preliminary results or highlight recent work 可展示初期成果或强调最近工作
  - Gain informal feedback to use in your research 获得非正式反馈用于后续研究
- Conference articles are typically shorter than journal articles, with less detail and fewer references 会议论文通常短于期刊论文, 细节和参考文献也少些

# Choices

- Scope the contents appropriate to the length **根据长度审视内容** :
  - Conference paper: 5-6 double-column pages **会议论文5-6双栏页**
  - Journal paper: 8-10 double-column pages **期刊论文8-10双栏页**
- Journal paper is NOT an elongated version of a conference paper. **期刊论文并不只是会议论文的加长版**
  - Shortening can result in a good-quality concise paper **短文可以是高质量论文**
  - Stretching often results in poor quality paper **长文也经常质量低下**
- At least 30-40% more technical and “useful” contents than your published conference paper. **期刊论文至少要在已出版会议论文基础上增加30-40%的“有用”技术型内容**
- Often need more useful research findings. **经常需要增加更多研究发现**

# IEEE 国际会议

Now over 1,400 annual conferences.  
Over 2.3 million total papers.

**>1,400  
in 2015!**

# 会议相关的几个概念

- Congress
- Conference
- Symposium
- Seminar
- Workshop
- ...

## COMSOC PORTFOLIO EVENTS

Embrace cutting-edge technologies at IEEE Communications Society's financially-sponsored global events. Every year, thousands of participants come to discover new ideas, explore innovative solutions, and network with the leaders who are changing the world of communications. In 2011 ComSoc adopted a **portfolio based conference management** approach, trying to maximize the value our conferences provide to our members. **Past, Present and FUTURE Conferences**

## IEEE ICC 2014 General Call for Papers

[\(Click here to download in PDF format\)](#)

The 2014 IEEE International Conference on Communications (ICC) will be held in the beautiful city of Sydney, Australia from 10-14 June 2014. Themed "Communications: The Centrepoint of the Digital Economy," this flagship conference of IEEE Communications Society will feature a comprehensive technical program including twelve Symposia and a number of Tutorials and Workshops. IEEE ICC 2014 will also include an exceptional expo program including keynote speakers and an Industry Forum & Exhibition. We invite you to submit your original technical papers, industry forum, workshop, and tutorial proposals to this event. Accepted and presented papers will be published in the IEEE ICC 2014 Conference Proceedings and in IEEE Xplore®. Full details of submission procedures are available at <http://www.ieee-icc.org/2014>. To be published in the IEEE ICC 2014 Conference Proceedings and IEEE Xplore®, an author of an accepted paper is required to register for the conference at the full or limited (member or non-member) rate and the paper must be presented at the conference. Non-refundable registration fees must be paid prior to uploading the final IEEE formatted, publication-ready version of the paper. For authors with multiple accepted papers, one full or limited registration is valid for up to 3 papers. Accepted and presented papers will be published in the IEEE ICC 2014 Conference Proceedings and submitted to IEEE Xplore®.

### Selected Areas in Communications Symposium Communication for the Smart Grid Track

Symposium Track Chair

Vincent Guillet, Landis+Gyr, [vincent.guillet@landisgyr.com](mailto:vincent.guillet@landisgyr.com)

The 2014 IEEE International Conference on Communications (ICC) will be held in the beautiful city of Sydney, Australia between 10 and 14 June 2014. The theme of this flagship conference of IEEE Communications Society for 2014 is “*Communications: The Centrepont of the Digital Economy.*” The conference will feature a comprehensive technical program including twelve Symposia and a number of Tutorials and Workshops. IEEE ICC 2014 will also include an attractive expo program including keynote speakers, and Industry Forum & Exhibitions (IF&E). We invite you to submit your original technical papers, industry forum, workshop, and tutorial proposals to this event.

# IEEE会议政策

- The IEEE reserves the right to exclude a paper from distribution after the conference (including its removal from IEEE Xplore) if the paper is not presented at the conference.

Papers are reviewed on the basis that they do not contain plagiarized material and have not been submitted to any other conference at the same time (double submission). These matters are taken very seriously and the IEEE Communications society will take action against any author who engages in either practice. Follow these links to learn more:

- [IEEE Policy on Plagiarism](#)
- [IEEE Policy on Double Submission](#)

<http://www.ieee-icc.org/authguide.html>

# 3.会议论文注意事项

## Paper Structure

Title

Abstract

Keywords

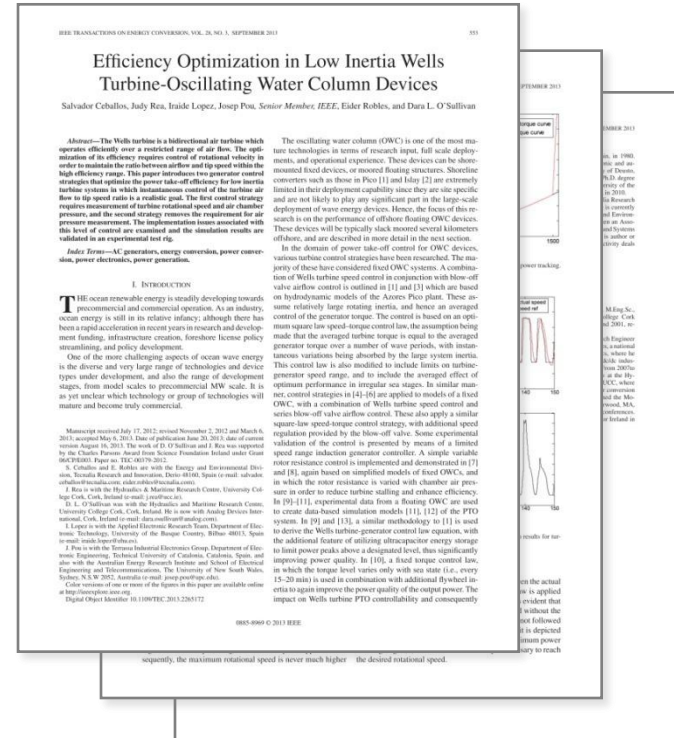

Introduction

Methodology

Results/Discussions/Findings

Conclusion

References

# 评审标准

- Content that is appropriate, in scope and level, for the conference
- Clearly written original material that addresses a new and important problem
- Valid methods and rationale
- Conclusions that make sense
- Illustrations, tables and graphs that support the text
- References that are current and relevant to the subject

# 拒稿原因

- The content is not a good fit for the publication
- There are serious scientific flaws:
  - Inconclusive results or incorrect interpretation
  - Fraudulent research
- It is poorly written
- It does not address a big enough problem or advance the scientific field
- The work was previously published
- The quality is not good enough for the journal
- Reviewers have misunderstood the article

# 学术规范

## Conflict of Interest

- A financial or other relationship with the publication at odds with the unbiased presentation of data or analysis

## Plagiarism

- Copying another person's work word for word or paraphrasing without proper citation

## Author Attribution

- Must be given if you use another author's ideas in your article, even if you do not directly quote a source

## Author involvement/ contributions

- Include any and all who have made a substantial intellectual contribution to the work
- Do not include minor contributors

# 学术规范

## Plagiarism

- Avoid plagiarism
  - Cite and separate any verbatim copied material
  - Paraphrase reused text properly, and include citation
  - Credit any reused ideas
  - Familiarize yourself with IEEE Policies

**Refer to our Tips Sheet**  
[http://www.ieee.org/publications\\_standards/publications/authors/plagiarism\\_and\\_multiple\\_submissions.pdf](http://www.ieee.org/publications_standards/publications/authors/plagiarism_and_multiple_submissions.pdf)

# 学术规范

## Duplication, Redundancies & Multiple Submissions

- Author must submit original work that:
  - Has not appeared elsewhere for publication
  - Is not under review for another refereed publication
  - Cites previous work
  - Indicates how it differs from the previously published work
  - Authors **MUST** also **inform the editor** when submitting any previously published work

**Refer to our Tips Sheet**  
[http://www.ieee.org/publications\\_standards/publications/authors/plagiarism\\_and\\_multiple\\_submissions.pdf](http://www.ieee.org/publications_standards/publications/authors/plagiarism_and_multiple_submissions.pdf)

## 4.会议论文改投期刊-以 **IEEE Sensors Journal** 为例

- The IEEE Sensors Journal encourages authors who have published at recent technical symposia, meetings and conferences to submit expanded, archival quality versions of their conference papers.
- Manuscripts of such expanded papers submitted for publication in the IEEE Sensors Journal must *clearly disclose the earlier publication*, by providing in a first page footnote the IEEE Xplore URL of the conference paper or its Digital Object Identifier (DOI) if it was published elsewhere.

# 会议论文修改指导

- Use feedback obtained at the conference to update, revise, and rewrite the paper, as appropriate, to *improve the paper's overall quality*.
- Add *new material to your paper*. Typically, your conference paper will grow to 8 pages, which allows the inclusion of new text, figures and data.
- Include a footnote in the submitted manuscript stating, e.g., "An earlier version of this paper was presented at the XYZ Conference and was published in its Proceedings." and include a web-link to the already published paper.
- Highlight the new sections, figures, etc. in the expanded manuscript to expedite processing.
- Provide a copy of the original conference paper (upload an additional PDF file during the submission process).

## IGARSS 2013

**Sunday 21 - Friday 26 July 2013**

**IEEE International Geoscience and Remote Sensing Symposium  
Melbourne, Australia**

**"Building a Sustainable Earth through Remote Sensing"**

### G'day IGARSS 2013 Participants!

On behalf of the IEEE Geoscience and Remote Sensing Society and the IGARSS 2013 Organizing Committee we would like to thank all participants for making IGARSS 2013 in Melbourne a great success! With over 1,360 participants from 66 countries, 1025 oral papers and 448 poster presentations, it was an excellent occasion for knowledge exchange, the exploration and discussion of topics related to 'Building a Sustainable Earth through Remote Sensing' and to catching up with old and new colleagues from around the globe.

We would also like to invite you to:

1. Keep an eye on the [IGARSS 2013 website](#) for presentation material as it becomes available.
- 2) Be aware that the J-STARS Special Issue for high-quality papers presented at IGARSS 2013 is now open for submissions. You will receive more information soon in a separate email.
3. Be sure to bookmark: <http://igarss2014.org/welcome.asp> for all the latest news on IGARSS 2014 in Quebec. Monique Bernier and her team are very much looking forward to seeing you all there for another wonderful IGARSS next year.

We were delighted to see you in Melbourne and hope that IGARSS 2013 was a productive and enjoyable experience for everyone.

# 会议论文大赛

## Student Paper Contest

### Contest Details

All IEEE student members are invited and encouraged to enter the IGARSS 2013 Student Prize Paper Competition. Ten finalists will be selected by a committee to present their papers during a special session at the symposium in Melbourne. All finalists will be offered partial travel support funding. Three prizes will be presented: First Prize (Mikio Takagi Student Prize) endowed with US\$ 1000.00, Second Prize endowed with US\$ 750.00, Third Prize endowed with US\$ 500.00, plus certificates for each.

To enter, a student should have submitted the following documents [online at the abstract submission page](#) by January 10, 2013:

1. A full, final, camera-ready paper formatted according to the paper kit section on final papers;
2. A signed letter from a faculty advisor stating that the student:
  - is a candidate for a degree and IEEE student member,
  - will personally present the paper if accepted,
  - will publish in the IGARSS 2013 Proceedings,
  - will register and participate in the symposium, and
  - will attend the Awards Banquet (free ticket provided by Local Organizers to every finalist);
3. Proof of your student status.

Contest guidelines:

1. The first/principal author must be a student.
2. The student must be an IEEE member.
3. Each student can only submit one paper for consideration in the contest.
4. The student must be in a degree program at the time of submission of IGARSS 2012 paper.
5. The student must attend IGARSS 2013 and present the paper.
6. The student will publish the paper in the IGARSS 2013 Proceedings.
7. The full paper **MUST BE FORMATTED ACCORDING TO THE PAPER KIT** and must be uploaded through the online system by **January 10, 2013**.

## Student Ambassador / Volunteer Information

### Schedules

- 
- 

[Ambassador Schedule](#)  
[Volunteer Schedule](#)

Join us at IGARSS 2013 as a student ambassador and receive an iPad as a thank you for your contribution of time.

This is an excellent opportunity for you to attend presentations, network with international industry representatives, and improve your resume – all free of charge, without the cost of registration (saving you a fee of \$520).

All student ambassadors who participate in 5 days of volunteering receive a free lunch and two teas daily, an iPad at the conclusion of the conference, and a copy of the proceedings of the conference. Celebrate your service at IGARSS 2013 with us at a post-conference party!

For those unable to volunteer for the full 5 days as a Student Ambassador, there are numerous other opportunities as a student volunteer to assist at the conference. For each full day of volunteering, you will receive a free day pass to attend the conference as a delegate on a day of your choice, in addition to receiving a certificate of service from the IGARSS 2013 committee.

## Student Ambassador Responsibilities and Rewards

### Main Duties

- Audio/video equipment assistance
- Twitter updates
- Greeting
- Ushering
- Photography
- Other ad hoc roles as required

**Time commitment:** 5 days on-site conference duties @ 8 hours/day, plus half a day pre-conference training.

**Total hours:** 44 hours (for 5 days onsite: 4 weekdays + 1 weekend day + half-day training)

## 6. 举办IEEE会议

- Conference organizers are:
  - people on conference committees;
  - IEEE groups that produce or co-sponsor conferences.
  
- Conference organizers live and work in many different countries around the world. They frequently hold other positions within their Section, Chapter, or Society.

# IEEE会议筹备

- Most conferences start preparing a minimum of 12 to 18 months before the conference date.
- Some of the pre-planning is done before you apply to IEEE for approval, such as getting sponsorship and defining the technical program.
- Many IEEE organizational units (Section, Societies, Technical Councils, etc.) have their own processes that must be completed to obtain sponsorship approval.
- Best practice has shown that earlier engagement with IEEE results in smoother execution and a simpler path for the conference committee.
